### **Knaus Tabbert achieves over one billion euros in consolidated revenues for the first time in fiscal year 2022**

- Growth spurt in the fourth quarter due to multi-brand strategy and improved supply of chassis
- Based on preliminary figures, group revenue increases by 22 percent to EUR 1,050 million in fiscal year 2022
- 29,556 leisure vehicles of the group brands sold in 2022

### **Jandelsbrunn. Driven by a strong growth spurt in the fourth quarter, Knaus Tabbert increased consolidated group revenue to over EUR 1 billion for the first time in fiscal year 2022 based on preliminary figures.**

Overall, consolidated group revenue in financial year 2022 increased by 22 percent to EUR 1,050 million (previous year: EUR 863 million). Of this, EUR 356 million was attributable to the fourth quarter alone (previous year: EUR 228 million), in which the positive effects of the multi-brand strategy at chassis became clearly evident for the first time. As a result, 11,426 motorized vehicles and 18,130 caravans were sold across the Group in the past fiscal year.

"The growth momentum in revenue and unit sales underscores the appeal of our brands for dealers and customers alike. The strong demand for leisure vehicles is also reflected in a continued high order backlog of EUR 1.3 billion at the end of the year," commented Wolfgang Speck, CEO of Knaus Tabbert AG, on the past year. "We are very proud of what we have achieved in the past year. The strong fourth quarter underlines Knaus Tabbert's great potential. Although the overall market was characterized by challenges along the supply chains, Knaus

Tabbert added four new chassis suppliers to its offering and launched more than 16 new model variants in less than twelve months."

The strong growth was driven by all five group brands - equally in the luxury and premium segments. The key figures reflect the temporary shift in production from motorhomes to caravans.

All information on revenue development is based on unaudited and preliminary figures in accordance with IFRS. Further statements on the 2022 forecast remain unchanged. The audited consolidated financial statements 2022 including the forecast for the financial year 2023 will be published on March 31, 2023.
